

Jamboree Labradors Breeding Terms

Stud fee for Louis V is \$2,000.00 (effective 1/1/23)

Semen can be shipped anywhere in USA, Mexico, or Canada

I retain the right to refuse stud service at any time

Option 1: \$500 nonrefundable service fee is paid at time of breeding. Balance of \$1,500 is due within 7 days once puppies are born. If a bitch fails to produce a litter, a service fee is paid again for a repeat breeding. **\$100 late fee if I receive the remaining balance after puppies are 7 days old****

Option 2: \$1,900 nonrefundable stud fee is paid at time of breeding. If a bitch fails to produce a litter, a repeat breeding will be given. Repeat breeding is non-transferrable and must be used within 2 years of first original breeding date

Other Notes:

A litter consists of two (2) live puppies at 7 days old.

Copies of all bitch pedigree and health testing along with signed stud contract and service fee/stud fee must be provided **BEFORE** semen is shipped or breeding has taken place. Bitch must have a minimum of OFA hips, elbows, eyes, and cardiac ECHO. There are no exceptions.

The bitch owner is responsible for all shipping expenses related to the breeding. This includes shipping kits, AI kits, chilled semen extender, and UPS shipping charges. We keep shipping kits and extender on hand, and the price for one kit with extender is \$50. If you choose to receive two shipments, the total for the shipping kits and extender will be \$100. My portion of the AKC Litter Registration form will NOT be completed until stud fee balance is paid in full.

Bitch owner is required to utilize progesterone testing in order to determine the optimal shipping/breeding dates. Live side-by-side AI is available but you must work around my busy work schedule and drive to my house. The cost for each AI kit is \$10.

All puppies sired by Louis V must be sold on AKC Limited Registration. Only puppies kept by the breeder and in the breeder's name are allowed to have AKC full registration.
